

PAINTING WITH WATERCOLOR ON YUPO CLASS SUPPLY LIST

With Lil Clinard

WatercolorsByLil@charter.net or www.Watercolorsbylil.com

PAPER: 5 sheets of Yupo paper any size, medium weight, nice if one is translucent (available through Cheap Joe's, Hobby Lobby or Jerry's Artarama; pads of 10 sheets to 20 sheets are \$10 to \$27). I'll bring some Yupo sheets to class if you are unable to get them. **Let me know in advance** if you do need sheets.

BACKER BOARD: a sheet of gator board, plexi, or foam core board to put your Yupo sheet on while you are working. It should be waterproof and at least 1 inch larger than your Yupo in both directions. This makes it easier to turn and tilt your painting to get interesting effects. I like to use a sheet of old plexi since it is easy to adhere the Yupo with just a little water.

PIGMENT: your standard watercolor paints and palette, and watercolor pencils (if you have them). Use what you have.

BRUSHES: your standard brushes - 1" or 2" wash brush (Hake brushes are fine), size 10 or 12 round brush, a small 4 or 6 round or a rigger.

MISCELLANEOUS: pencil, masking fluid or white artist tape (½ or 1"), paper towels or tissues, water container, water spray bottle, and a small (1 to 3 inches) foam roller.

NICE TO HAVE: brayer, Q-tips, alcohol, apron, stencil, stamp, and gloves.

DON'T WORRY IF YOU DO NOT HAVE ALL THE SUPPLIES..... you can work with what you have, and we can share.
