

## Beginning to Paint on Yupo SUPPLY LIST

With Lil Clinard

[WatercolorsByLil@charter.net](mailto:WatercolorsByLil@charter.net) or [www.Watercolorsbylil.com](http://www.Watercolorsbylil.com)

**PAPER:** Two sheets of Yupo paper any size, medium weight, nice if one is translucent (available through Cheap Joe's, Hobby Lobby or Jerry's Artarama; pads of 10 sheets to 20 sheets are \$10 to \$27). I'll bring some Yupo sheets to class if you are unable to get them (\$2 per sheet). **Let me know in advance** if you do need sheets.

**BACKER BOARD:** a sheet of gator board, plexiglass, or foam core board to put your Yupo sheet on while you are working. It should be waterproof and at least 1 inch larger than your Yupo in both directions. This makes it easier to turn and tilt your painting to get interesting effects. I like to use a sheet of old plexiglass since it is easy to adhere the Yupo with just a little water.

**PIGMENT:** your standard watercolor paints and palette, and watercolor pencils (if you have them). Use what you have.

**BRUSHES:** your standard brushes - 1" or 2" wash brush (Hake brushes are fine), size 10 or 12 round brush, a small 4 or 6 round or a rigger. Bring a small (1 to 3 inches wide) foam roller.

**MISCELLANEOUS:** pencil, masking fluid or white artist tape (½ or 1"), paper towels or tissues, water container, and water spray bottle.

**NICE TO HAVE:** brayer, Q-tips, alcohol, apron, stencil, stamp, and gloves.

**DON'T WORRY IF YOU DO NOT HAVE ALL THE SUPPLIES..... you can work with what you have, and we can share.**
